Hi Amy,

Please ask if we can come in at 10am (coz the temps will need prayers time from 1230pm to 230pm)

Thanks,
Ryan.

> Hi,
>
> Basically, what was agreed with Lee Ann (spoke to her today) was that temps come in a day to assist looking for the images in the photo library. This will only work if Tesco buyers provide information ie the refers of which mailer its advertised. And all items not advertised will have samples arranged and photographed by the Buyers. My concern is that I cant guarantee what the temps match is 100% correct or not since they do not have the product knowledge, therefore, buyers should still need to run through it to confirm if the items are matched correctly.
>
> So, KK, can i please have the compiled lists of what items are in the library for the temps to look for, that'll be much appreciated. Meanwhile, Buyers can/should send items for photography to meet the timelines (this will be arranged with Lee Ann).
>
> However, if KK's team will go through the image bank to search for the products, it will save the hassle of rechecking the temps work but on the other hand, do the buyers have time?
>
> So its back to you guys to let us know how you prefer it to be done. Kindly advise.
>
> I was going to check with Lee Ann, if my temps could come on Friday, 2pm to do the image identification from the library with proper lists available.

KK,

Understand your concern. There is an image bank available of photos taken in Makro. We will need Lee Ann's advise on the best way for your team to view the images.

Lee Ann, in reading, can you advise on the above.

Thanks.

Regina,

Had a request from Grocery on the above. Are there a ready library of photographs in Makro that we could utilise. It seems to be difficult to get at least 125cartons of goods to be delivered and had the photos taken.... Could you revert.

Thank you.

Best Regards,
KOK Kian Kee
